

COMBINATION SHOWER & EYEWASH FIXTURES pair-up eyewash with emergency showers when the MSDS calls for both eye and skin irrigation. To accommodate various site conditions, combination units provide several options including: Stainless components, PVC, foot-treadle operation, anti-scald or anti-freeze valves and freeze-protected heat trace units.

Halo™ Combination Emergency Shower & Eyewash Stations

- Combine Halo™ eyewash technology with SpinTec™ shower features for high performance safety installations
- SpinTec™ showers yield superior fluid distribution • Durable ABS plastic showerhead
- Compact profile means less in-plant damage
- Features antimicrobial protection, integral strainers, and rugged safety-yellow powder coating for easy visual identification in an emergency
- Aquaduct™ self-draining design eliminates bacteria growth from standing fluid
- Eye/face wash models provides industry leading 85% facial coverage
- Activate by push handle or by lifting dust cover
- Eyewash models feature unique flip open dust caps
- Optional see-through dust cover (shown) makes inspection simple and keeps device free of debris and ready for use
- Stainless steel models are ideal for corrosive, high abuse environments
- Eyewash subsection fully assembled • ULC certified to ANSI standard Z358.1

IMPORTANT: Regulations require tepid water (18-37°C). See page 662 for water tempering devices

Combination Emergency Shower & Eye/Face Wash Stations

- Hydrodynamic shower design produces equal flow distribution
- Revolutionary inverted flow sweeps contaminants away from the vulnerable nasal cavity
- Provides a zero vertical velocity stream for enhanced comfort, stability, and effectiveness
- 11" diameter bowl
- Galvanized stanchion for long life
- Mesh strainer collects debris
- Durable ball valve with stainless steel stem
- Certified by CSA to meet the ANSI standard Z358.1

Combination Shower Eye/Face Wash

- Features a round 11" (27.9 cm) green ABS plastic waste water bowl and durable abs plastic drench showerhead that distributes uniform flush and consistent water pressure
- Built-in flow regulation in green ABS plastic eye/face wash heads
- Integral flip-top dust covers that immediately release with flow of water
- Gentle flushing flow of eye/face wash spray fully immerses eye and face area to effectively remove chemical and particulate hazards
- 3/4" IPS Schedule 40 hot-dipped galvanized steel pipe and fittings
- ANSI COMPLIANT for gallons per minute, flow rate, stream height, and water distribution
- Valve is designed so the full flow of water remains on with the simple tug of the triangular pull rod (included)
