

Woodpecker Forstner Bits

- Designed to bore clean, flat, precise holes in a variety of woods
- Made of high carbon steel
- Up to 1" diameter are made with 1/4" hex shank
- Over 1" diameter made with 5/16" or 7/16" hex shank to prevent slippage

Bormax Forstner Bits

- Innovative new design outlasting any bit on the market
- European quality bits, made in Germany, CNC machined
- Premium tool steel construction, heat treated for durability and accuracy
- Razor sharp edge for excellent finish
- Incorporates saw tooth style and wave-form side clearance for tear free accurate holes
- Modified cutting head for reduced friction, cooler boring and reduced burning
