

Telescoping Gauges

Starrett® telescoping gauges are used for determining the true size of holes, slots, and recesses up to 6" (150 mm).

1/2-6" (13-150 mm)

Each of these gauges feature a handle, one rigid contact arm and one spring-tensioned telescoping contact arm.

SELF-CENTERING WITH TWO TELESCOPING ARMS

5/16-6" (8-150 mm)

Handles are rigidly attached to the contact plungers and are automatically self-centering. Constant spring tension gives uniform contact pressure and both plungers are easily locked at any desired setting.
