

## Back & Side-Wired Straight Blade Receptacles with Strap

- All industrial back & side wired receptacles have #10-32 triple combination head terminal screws: straight, Phillips and Robertson; all industrial side wired receptacles, #8-32
- Back and side wiring options accept #14-#10 AWG stranded or solid wire
- Break-off fins for easy two-circuit conversion
- Apron barrier to prevent accidental contact between terminal screwheads and metal box
- Exclusive V-shaped, serrated back-wiring clamps for superior contact and conductivity
- 125 Volts
- No. of Outlets: 2
- Backed by a limited 10-year warranty
- UL and CSA Certified

## GFCI Decora® Outlets

- Provides continuous ground fault protection as it detects and trips on actual ground fault even when self-test is being conducted
- Status Indicator Light provides simple, intuitive feedback on power and protection status as well as indication of line/load reversal
- Patented Lockout Action prevents reset if GFCI is damaged and cannot respond to a ground fault
- Terminals allow for easy wiring options as they are back and side wire capable
- Reduced depth makes it easier to install in any electrical box, even shallow ones
- Designed for wet and damp locations to meet the requirements of NEC Section 406.8
- 125 Volts
- No. of Outlets: 2
- Colour: White
- CSA Certified

## Extra Deep Weather Resistant Receptacle Covers

- Impact resistant thermoplastic construction
- Pre-installed gasket for easy, reliable installation
- Tongue and groove plate-to-cover construction
- Offset device opening (horizontal only) for easier cord exit
- Thermoplastic inserts prevent insect and debris accumulation
- Mounting screws and rubber gasket included for fast, easy installation onto surface-mounted outdoor-type boxes or flush-mounted wall boxes
- Easy-grip self-closing covers with durable, non-corrosive stainless steel screws
- Backed by a limited two-year warranty
