SAR462	M69003	For 14" Gloves	
SAR463	M69004	For 16" Gloves	

Portable Glove Inflators

Electrical insulating gloves must be inspected before each use. Inspection is simplified by using a portable glove inflator such as the Salisbury G100 with adapter for Class 00 and 0, and smaller size gloves, patent pending.

- Simple, easy to use
- Provides a quality means of inspecting gloves in the field
- Glove is secured to the inflator using a nylon strap and fastened with hook and pile, or a rubber O-ring
- Inflation is accomplished by pumping the bellows of the inflator
