**ALUMINUM TYPE 27**

- Performance grinding and cutting in soft metals
- These wheels grind all types of aluminum and non-ferrous metals smoothly and at removal rates never thought possible
- The specially impregnated bonding of these wheels resists loading even when grinding very soft, pure aluminum
- They do not contain any waxes or lubricants and do not contaminate the material worked on – ground surfaces are therefore clean and ready for welding without further clean-up
- **1/8" Thick:** Formulated for cutting but may also be used for intermittent light grinding; fast and free cutting
- **1/4" Thick:** Fast removal rate and long wheel life; no clogging in any type of aluminum
